

8 Ways To Improve Your Credit

Credit scores, along with your overall income and debt, are a big factor in determining if you'll qualify for a loan and what loan terms you'll be able to qualify for.

1. **Check** for and correct errors in your credit report. Mistakes happen, and you could be paying for someone else's poor financial management.
2. **Pay down** credit card bills. If possible, pay off the entire balance every month. However, transferring credit card debt from one card to another could lower your score.
3. **Don't charge** your credit cards to the maximum limit.
4. **Wait 12** months after credit difficulties to apply for a mortgage. You're penalized less for problems after a year.
5. **Don't purchase** big-ticket items for your new home on credit cards until after the loan is approved. The amounts will add to your debt.
6. **Don't open** new credit card accounts before applying for a mortgage. Having too much available credit can lower your score.
7. **Shop for** mortgage rates all at once. Too many credit applications can lower your score, but multiple inquiries from the same type of lender are counted as one inquiry if submitted over a short period of time.
8. **Avoid finance** companies. Even if you pay the loan on time, the interest is high and it will probably be considered a sign of poor credit management.
